

Advanced Scale & Control Software Module Enhancements

- Performance & User Interface Enhancements

Advanced Connectivity Software Module Enhancements

- Performance Improvements

Customer Test, Enhanced Reporting & Export Software Module Enhancements

Data Integration

- Enhanced Data Import Capability
- Meter Accuracy Analysis
- Vendor-Supplied Data Comparative Analysis & Auditing
- Asset Tracking

New, Robust Reporting Engine

- Witness Test Pass/Fail Report
- Enhanced Standard Reports
- Advanced Customized Reports

The M3 Enterprise Software Suite is a collection of custom-designed software modules allowing customers to harness the power of new technology more efficiently. It provides both new and existing customers with the ability to capture valuable meter testing data based on their individual meter testing programs. Custom reporting, extensive data exporting features, and browser-based access allow multiple departments to harness the power of data analytics to improve customer service, implement operational improvements, and make informed purchasing decisions.

The M3 Enterprise Software Suite is designed as a modular and scalable software solution enabling customers to purchase what they need when they need it. The Software Suite is comprised of the Core Platform Software and three optional software packages: the Advanced Scale & Control Software Module, the Advanced Connectivity Module, and the Custom Test, Reporting & Export Module.

MARS Company will be a featured exhibitor (booth #502) at the California Nevada Section of the American Water Works Association (CA-NV AWWA). The 2019 Annual Fall Conference will be held on October 21-24, 2019. For more information about MARS Company and its products and services, please visit www.MARSwater.com.

About MARS Company

MARS Company is a global leader in water meter testing and technology solutions. With more than 30 years of experience assisting municipal and private utilities throughout the world, MARS has a long track record of success. MARS core business and expertise is its patented water meter testing systems and software technology along with water system specialty products. Innovative thinking allows MARS to leverage its unique proprietary technology, patent positioning, manufacturing infrastructure and world-class management strength to position itself as the leader in the water industry.
